

NAME: \_\_\_\_\_ CLASS: \_\_\_\_\_

**EXERCISE 1**

Read the passage below carefully and answer the questions that follow.

Cleanliness is very important when we handle food. There are many ways to ensure that the food we prepare is clean and healthy to eat.

First, we must wash all fruits and vegetables carefully before eating or cooking. We must never eat unwashed apples and oranges or unwashed beans and carrots. The reason is they may still contain pesticides which may harm us.

Not only must we wash all pots and pans but also dishes, forks and spoons. We must use clean water and soap to do this. Clearly, this will help remove all germs and bacteria.

Personal cleanliness is also very important. Make sure that your hair is covered before you begin to cook. Always wash your hands with soap and water before you prepare or serve food.

Finally, remember to keep all food covered. Also keep gardens and drains clean. Remember! Rubbish attracts flies and rats. Unclean surroundings too, may lead to diseases.

What is the best title for the text?

- A Correct ways on handling food
- B Wash all the fruits and vegetables by eating and cooking.
- C Always keep all the food covered
- D Use clean water and soap to remove all germs and bacteria

2 The opposite meaning of **'before'** is

**EXERCISE 2**

Read the poster below carefully and answer the questions that follow.

**HEALTHY TIPS-SUPER FRUITS**

**Kiwi:** Tiny but mighty

This is a good source of potassium, magnesium, vitamin E and fibre. Its vitamin C content is twice that of an orange.

**Apple:** Eat the skin too!

Although an apple has low vitamin C content, it has antioxidants which help to lower the risks of colon cancer, heart attack and stroke.

**Orange:** Sweetest medicine

Taking two to four oranges a day may help keep colds away, lower cholesterol and dissolve kidney stones.

**Watermelon:** Coolest thirst quencher

The watermelon consists of 92% water and is packed with nutrients which help to boost our immune system.

**Guava and papaya:** Top awards for vitamin C!

They are the clear winners for their high vitamin C content. Guava is also rich in fibre which helps prevent constipation. Papaya is rich in carotene, that is good for the eyes.

*Tick (✓) the correct answer.*

**1** Fruits are good source of ...

vitamins and fibre.	<input type="checkbox"/>
omega 3 and magnesium.	<input type="checkbox"/>
carotene and potassium.	<input type="checkbox"/>
