

A. Interprete:

A.1. Ordene la historia

While in the garage he found a freezer full of cold beers so he decided to have some fun.

Justin Stansfield, 38 a British heroin addict and thief, broke into a garage.

Later this cost him sixteen months behind bars.

Justin took out his fake teeth to enjoy a couple of Popsicles which he also discovered in the freezer.

Unfortunately, before he left he forgot to put his teeth back in.

He intended to steal anything he could find of value so he could sell and buy some more drugs.

A.2. El título de la historia es:

- Fake teeth, imprisonment for sure.
- Drug addiction
- Saved by the Popsicles

B. Interprete la historia y luego escriba si las frases siguientes son verdaderas o falsas:

A thief in Portland, Oregon, broke into a house, went through every inch of the property, opened all the drawers, and stole everything of value he could find without leaving any fingerprints. However, what appeared to be almost the perfect robbery was ruined when the thief grabbed a container of orange juice from the refrigerator and took a gulp directly from it, leaving it in the sink. The container was sent straight to the DNA testing unit at the Oregon State Crime Lab in Clackamas where forensic scientists found a match. Christopher Lathrop quickly confessed after he was arrested and will probably never drink orange juice again.

1. El ladrón revisó toda la casa.
2. El ladrón tuvo sed.
3. La policía lo encontró dentro de la casa.
4. El laboratorio de criminalística tuvo resultados certeros sobre el criminal.
