$$645 \div 43 =$$

The diagram illustrates a step function and two horizontal lines. The step function starts at a low level, then jumps to a higher level. Below it, there are two horizontal lines: the top one is labeled '1' and the bottom one is labeled '0'.

$$6493 \div 75$$

The figure consists of three vertically stacked diagrams, each showing a function $f(x)$ (a smooth curve) and its approximation $S_n(x)$ (a step function). The x-axis is labeled from 0 to 1, and the y-axis is labeled from 0 to 1. The approximation $S_n(x)$ is shown as a black line that follows the curve $f(x)$ in a step-wise manner. In the first diagram, $S_n(x)$ has one step. In the second diagram, $S_n(x)$ has two steps. In the third diagram, $S_n(x)$ has three steps.
