

Worksheet

Read the instructions and all the information in the task before listening to the podcast. Listen to the podcast once to familiarize yourself with the situation, then listen to the podcast as many times as necessary to better understand.

1. Before listening to the podcast

1. Have you ever listened to a podcast?
2. Have you ever listened to a murder case story? Which one?
3. Have you ever seen the movie "The Lovely Bones"?
4. Did you do the vocabulary task before this activity?

2. Write down the role played by the characters throughout the situation narrated in the podcast.

Character	Role
Linda Ann o'keefe	
James Alan George Layton	
Todd Spitze	
Julian Olarte	

DNA analysis	
Lincoln Intermediate school	
Witness	

3. Listen again. Choose true (T) or false (F), if you consider that the following situations were named in Linda's case.

Phrases	T	F
The day that Ann was wearing a red dress with flowers that her mother had baked?		
Ann was murdered in 1973?		
The killer was seen in a small car?		
When James Neal murdered Ann was he 27 years old?		
Ann was strangled?		
Did the police find enough evidence to blame someone?		
Did they find the killer in 2018?		

4. Organize the following situations in chronological order as narrated in the podcast

	As a result of the DNA analysis, a person by the name of Neal . His name was supposed to be Neal, but he changed it to James Alan George Layton.
--	--

Answer

1. Write down the role played by the characters throughout the situation narrated in the podcast.

Character	Role
Linda Ann o'keefe	• She was a victim of murder and strangulation. • She was 11 years old. She lived in Newport, California (USA) with her parents and sisters. • She took piano lessons on Fridays.
James Alan George Layton	• He is the murderer in the case. • He was 27 years old when he killed Linda. • His name was Neal but he changed

	to James Alan George Layton.
Todd Spitze	He found the DNA on the victim's white dress
Julian Olarte	- He was Linda's friend and neighbor since elementary school. - They used to go to school together every day.
DNA analysis	- DNA sample recovered from the victim's dress. - DNA was used to lead to the suspect.
Lincoln Intermediate school	She studied at Lincoln Intermediate school.
Witness	He was the only witness who saw Linda talking to the culprit in a van.

2. Listen again. Choose true (T) or false (F), if you consider that the following situations were named in the case.

Phrases	T	F
The day that Ann was wearing a red dress with flowers that her mother had baked?		x
Ann was murdered in 1973?	x	
The killer was seen in a small car?		x
When James Neal murdered Ann was he 27 years old?	x	
Ann was strangled?	x	
Did the police find enough evidence to blame someone?	x
