

ÁREAS Y PERÍMETROS

1. Cuenta los cuadritos y escribe el área de cada figura. (2 ptos. c/u)

The worksheet contains five figures made of unit squares, each with a corresponding 'Área' box:

- Blue figure:** A shape made of 10 unit squares. It consists of a top row of 2 squares, a second row of 3 squares starting from the left, and a third row of 5 squares starting from the second square of the first row.
- Pink figure:** A 5x5 square made of 25 unit squares.
- Orange figure:** A shape made of 15 unit squares. It has a vertical column of 5 squares on the left, and a horizontal row of 3 squares attached to the second square from the top of the column. The rest of the shape is a 3x2 rectangle attached to the right of the horizontal row.
- Green figure:** A shape made of 15 unit squares. It has a top row of 4 squares, a second row of 6 squares starting from the second square of the first row, and a third row of 2 squares starting from the second square of the second row.
- Red figure:** A shape made of 18 unit squares. It has a vertical column of 5 squares, a horizontal row of 3 squares attached to the top square of the column, and a 2x2 square attached to the right of the third square from the top of the column.

Each figure has a box labeled 'Área' next to it for the student to write the area.

2. Cuenta los cuadraditos y medios cuadraditos de estas figuras y calcula su área.

(3 ptos c/u)

.....  y 

Área = 

.....  y 

Área = 

.....  y 

Área = 

3. calcula el perímetro de los siguientes polígonos. (2 ptos. c/u)

Perímetro: _____ cm.

Perímetro: _____ cm.

Perímetro: _____ cm.

Perímetro: _____ cm.

4. Calcula el área de las siguientes figuras. (4 ptos. c/u)

Área: _____ m²

Área: _____ m²

Área: _____ m²

Área: _____ m²

5. Observa la siguiente imagen y une los enunciados con la bandera correspondiente. (2 ptos. c/u)

Une con la bandera de mayor área.

Une con la bandera de menor área

¿Qué color/es tiene un área de 18  ?

¿Cuánto más área tiene el rosado que el azul?
