

Fill in with the
right word

cactus - dry - waxy - hot - underground - rock - flat - spines

The deserts are during the day, but cold at night.

Deserts can be or filled with mountains. Deserts are

veryso not many plants grow in them. But one special

desert plant is a They have thickskin

with sharp They can live with very little water.

Camels live in the desert, but most desert animals are small. These

animals hide in homes. It's cooler under the ground or

in the shadow of a
