# VOCABULARY

## The Media

We add suffixes to the end of root or base words. When you add a suffix to a root word you can change the word's meaning.

**Example: Sing becomes singing by adding the suffix "-ing"**

Usually, suffixes like: **-er, -ion, -ment, -ation** and **-ee** are added to verbs to create new nouns.

B. Change the words to nouns by adding a suffix.
