

Expanded Notation

Write the expanded notation for:

$$\begin{aligned} 1.45 &= (\underline{\quad} \times 10 + \underline{\quad} \times 1) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 2.86 &= (\underline{\quad} \times 10 + \underline{\quad} \times 1) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 3.20 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 4.51 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned} 5.87 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\ &= \underline{\quad} + \underline{\quad} \\ &= \underline{\quad} \end{aligned}$$

$$\begin{aligned}
 6.10 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\
 &= \underline{\quad} + \underline{\quad} \\
 &= \underline{\quad}
 \end{aligned}$$

$$\begin{aligned}
 7.40 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\
 &= \underline{\quad} + \underline{\quad} \\
 &= \underline{\quad}
 \end{aligned}$$

$$\begin{aligned}
 8.92 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\
 &= \underline{\quad} + \underline{\quad} \\
 &= \underline{\quad}
 \end{aligned}$$

$$\begin{aligned}
 9.77 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\
 &= \underline{\quad} + \underline{\quad} \\
 &= \underline{\quad}
 \end{aligned}$$

$$\begin{aligned}
 10.14 &= (\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}) \\
 &= \underline{\quad} + \underline{\quad} \\
 &= \underline{\quad}
 \end{aligned}$$
