Time

The Earth takes 365 and a quarter days tomove..... around the sun, so every four years we have a 'leap' year. In a leap year,

3 Most months have 31 days, but four the months only have 30 days. February is the
4 month only has 28 or 29 days.
5 Twice a year, countries in the world decide to change the time by one hour. We do this
6 we want to use more light from the
7 sun. This helps people who outside. This is also better for people that have to do
8 lot of driving.

We change the time twice a year. In March, we make the time one hour later and in October, one hour earlier. So, on the first day after the clocks
9 changed in October,
10 can stay in bed for another hour!
