On the other hand

replace

emotions

mistakes

humans

## Body 2

\_\_\_\_\_, intelligent robots with \_\_\_\_\_ may act in their own interests. This will affect us greatly because the robots will create a 'jobless future' for \_\_\_\_\_. I believe many companies prefer robots to human because robots will rarely make \_\_\_\_\_. Therefore, maybe robots will \_\_\_\_\_ humans entirely in the future.

In conclusion

innovative

emotions

## Conclusion

\_\_\_\_\_, I think robots will probably have \_\_\_\_\_. After all, human beings are \_\_\_\_\_, so there is a possibility that robots with emotions can be created.
