

Plant nutrition and respiration

Label the picture. Drag from the word bank.

raw sap • elaborated sap • leaves • stem • roots

Order the process of plant nutrition. Write numbers from 1 to 5.

- The stem transports the raw sap to the leaves.
- The stems take the elaborated sap to all the other parts of the plant.
- The roots absorb water and minerals from the soil.
- The leaves absorb carbon dioxide and the raw sap becomes elaborated sap.
- The chlorophyll absorbs solar energy.
