Reading

- Read then answer the following questions:

My name is Ahmed, I'm nine years old. I am from Bahrain. My family and I go to the beach every Friday. They like swimming, but I like collecting shells with my younger sister Nour. We have 90 shells right now. Some shells are pink and big, and other ones are white and small. We keep our collection in a big glass jar. Everybody likes to look at our collection. My older brother Ali sometimes helps us collect shells of different shapes. My favourite shells are the ones that look like beautiful pieces of glass. The glass shells are difficult to find. I have about 20 glass shells. They're pretty.

**Read again and answer the following questions.**

**A- Put (T) for true answers and (F) for false ones.**

1- Ahmed goes to the beach only with his sister. T / F
