A young man from Germany named Levi Strauss arrived in California in 1850. He went there to sell things to the miners. He saw that the miners needed strong pants, so he began to make them. He used cloth that people made tents from. He put rivets on the pockets to make them strong because the men put rocks in their pockets. These pants were very strong and lasted a long time. The pants became very popular immediately.

Later Mr. Strauss started making jeans from cotton cloth from Nimes, France. People called this cloth denim. Denim was popular in the fifteenth century. Christopher Columbus used denim for the sails of his ships. Sailors in Genoa, Italy, wore denim pants. The word "jeans" comes from the word "Genoa". Mr. Strauss made the first jeans in the United States, but the idea and the kind of cloth came from Europe. The names came from France and Italy.

Jeans were always blue until recently. People used indigo to dye them. Indigo is the oldest dye in the world. Most jeans have blue threads going across and white threads going up and down. These two colors make denim look different from other kinds of cloth.

Read the following passage and choose the correct answer for each of the below from 26-30.

Teenagers and Sleep

Sleep is food for the brain. During sleep, important body functions and brain activity occur. Skipping sleep can be harmful, even deadly, particularly if you are behind the wheel. You can look bad, you may feel moody, and you perform poorly. Sleepiness can make it hard to get along with your family and friends and hurt your scores on school exams. Sleepiness can lead to aggressive or inappropriate behavior such as yelling at your friends or being impatient with your teachers or family members.

Sleep is vital to your well-being, as important as the air you breathe, the water you drink and the food you eat. It can even help you to eat better and manage the stress of being a teenager.

Teenagers need about 8 to 10 hours of sleep each night to function best. Most teens do not get enough sleep: one study found that only 15% reported sleeping 8 hours and a half on school nights. Not getting enough sleep or having sleep difficulties can limit your ability to learn, listen, concentrate and solve problems.

Teens tend to have irregular sleep patterns across the week - they typically stay up late and sleep in late on the weekends, which can affect their biological clocks and hurt the quality of their sleep.

Consuming caffeine close to bedtime can hurt your sleep, so avoid coffee, tea, soda and chocolate late in the day, and you can get to sleep at night. Nicotine and alcohol will also interfere with your sleep.

A consistent sleep schedule will help you feel less tired since it allows your body to get in synchronization with its natural patterns. You will find that it's easier to fall asleep at bedtime with this type of routine.

Câu 26.Sleepiness is harmful because _____.

A. our scores at school may be low and the relationship with others becomes worse

B. important body functions and brain activity occur during sleep

C. you can look bad behind the wheel

D. can lead to appropriate behaviors or being patient with your teachers or family members
