ANDEAN PUMA

This is a puma. It lives in the Peruvian highlands and forests. It has brown fur and strong legs. It has a long tail.

It can run and jump very high. It can climb mountains and trees. It can swim.

This animal is in danger of extinction because of the destruction of its habitat and because people kill them.

MACAW

This is a macaw. It lives in the Peruvian rainforest. It's very intelligent and it has strong wings. It has colorful feathers and a big beak.

It can fly very fast and it can scream very loud. It can repeat some words but it can't have a conversation.

This bird is in danger of extinction because of the destruction of tropical rainforests and because people have it as a pet.

MAQUISAPA MONKEY

This is a maquisapa monkey or spider monkey. It lives in the Peruvian jungle. It's very intelligent and it has black fur. It has long legs. It has a small head and a long tail.

It can jump very high and it can climb trees to get fresh fruit.

This monkey is in danger of extinction because of the destruction of tropical rainforests and the risk of hunting.

TARICAYA TURTLE

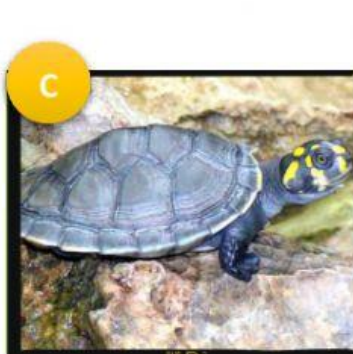

This is a taricaya turtle. It lives in the Amazon river. It has a hard shell on its back to protect itself from predators. It has short legs. It has a small head and tail.

It can swim very well and it can walk on the land. But it can't run very fast.

This turtle is in danger of extinction because of egg poaching.
