

# Die Uhrzeit ablesen mit vollen und halben Stunden in 2-mal-12-Stunden-Zählung

Anweisungen: Trag in Worten die richtige Uhrzeit für die folgenden Uhren in die Kästen ein. Benutze die 2-mal-12-Stunden-Zählung (2x12).

Enter the the correct time in words for the following clocks. Use 2x12-hours (civilian)

zum Beispiel:  
for example:

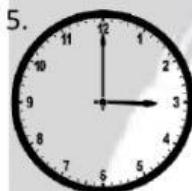

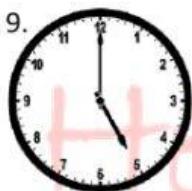

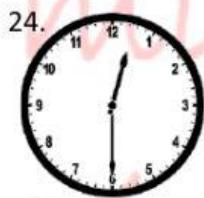

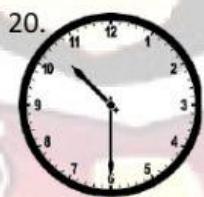

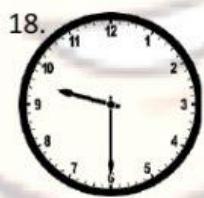

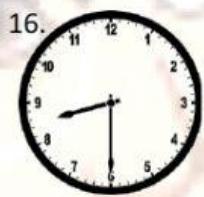

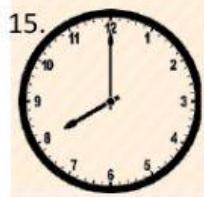

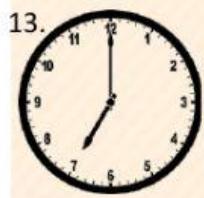

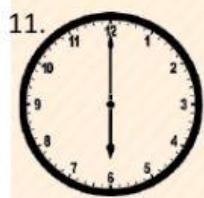

Es ist zwölf Uhr  
Es ist Mittag  
Es ist Mitternacht

Es ist zwölf Uhr dreißig  
Es ist halb eins

Don't Forget!!: On the half hour, German says your half way to the next hour, rather than half past the previous hour.
