PRACTICE

Exercise 1:

Modern technology

Complete this text about modern technology with *can*, *can't*, *could* or *couldn't*.

You can't⁰ deny that modern technology has changed our lives. With it, we can⁰ do things now that we¹ do at all only a few years ago. For example, 10 years ago you² only phone from a building or a telephone box but now we³ make a call wherever we are, and previously you⁴ only use telephones to make phone calls but now you⁵ also take photos with them. Of course, in the old days you⁶ take photos with a camera, but you⁷ take them without a film. Digital cameras⁸ take hundreds of photos without a film, though you still⁹ make copies of your photos without a printer. Another thing is music. A few years ago you¹⁰ only listen to your music collection at home but now, thanks to MP3 players, you¹¹ listen to it in the street or on the bus.

Exercise 2:

Generation differences

Complete this text by putting in each of the expressions in the blanks.

be able can can't can't could could
couldn't managed will be able were able

When my father was young, he didn't have much money so he could⁰ hardly afford any luxuries. I¹ remember exactly when he met my mother, but it was love at first sight. They worked in the same factory but they² see each other during the week because they worked different shifts. One day my mother said, "We³ be young lovers for ever. If we don't save some money, I don't know when we'll⁴ to get married." My father⁵ see that she was right: they had to do something. So he started working an extra shift at the weekend and my mother started to take evening classes to learn accountancy. She didn't have much time to study but at the end of the year she⁶ to pass the exam and get a job in the accounts department, which was better paid. After another six months they had enough savings and they⁷ to get a flat of their own. Things are easier for my generation. My sister and I⁸ buy almost anything we want. I hope my children⁹ to say the same.
