

Listen and put the paragraphs in order:

You're welcome.

Today, we're talking to young fashion designer and writer, Angela Lan, about her work.
Angela started to make clothes when she was nine. Last year, she wrote a book about designing clothes. She's still only sixteen years old! Hi, Angela.
Thanks for speaking to us today.

And this plain, white jacket is great. You can wear it with trainers and sunglasses and look really cool! It's difficult to choose a third one. There are so many things I like!
This plain, light brown coat is fantastic. It's really warm, so it's perfect for cold weather. Put your hands in those big pockets to keep warm too!

So, Angela. Tell us about your three favourite designs.

Sure! So, these striped trousers are comfortable and fun to wear. I like clothes with lots of colour too, but these are black and white. The stripes make you look taller too. I don't have any spotted designs at the moment, but I love striped clothes!

That's great. Thanks, Angela.
