Questions 8 - 13

You will hear a scientist named Alex talking about ocean pollution. For each question, choose the correct answer, **A, B** or **C.**

8 What does marine life include?

A Only animals.

B Only plants.

C Both plants and animals.

9 What is ocean contamination?

A When chemicals are dumped in the ocean.

B When the sun turns plastic into microplastic.

C When animals become trapped in plastic bags.

10 How does plastic cause animals to die?

A Plastic reflects the sun and makes the ocean hotter.

B Animals eat plastic and it kills them.

C People throw rubbish on the beach.

11 What is microplastic?

A Tiny pieces of plastic in the ocean.

B A new kind of plastic that doesn't pollute the ocean.

C Plastic that is safe for animals that live in the ocean to eat.

12 How can we decrease ocean pollution according to Alex?

A By going to the beach less often.

B By using less plastic in our everyday lives.

C By creating more microplastic.

13 What should people do with their garbage when they leave the beach?

A Throw it in the ocean.

B Leave it in the sand.

C Take it with them.
