

Calculating Density.

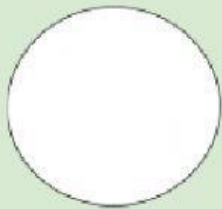

Name: _____ Date: _____

Formula:

$$\text{Density} = \frac{\text{Mass}}{\text{Volume}}$$

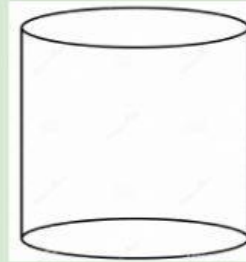

Instructions. Find the density of each density.

A.

Mass. 18g
Volume. 18ml
Density.

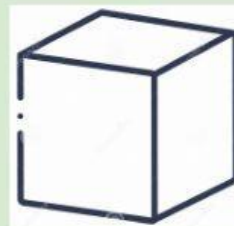

B.

Mass. 284g
Volume. 116ml
Density.

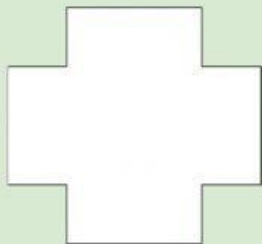

C.

Mass. 1200g
Volume. 3000ml
Density.

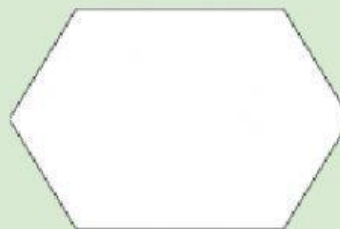

D.

Mass. 42.63g
Volume. 49ml
Density.

E.

Mass. 9g
Volume. 27ml
Density.

F.

Mass. 43g
Volume. 28ml
Density.
