Making Choices

WORD PROBLEM

A box of ball pens costs ₱48.00.
Each box contains 12 pens.
How much does each pen cost?

₱ _____.00

WORD PROBLEM

A set of 10 gel pens costs ₱100.00.
How much does each gel pen cost?

₱ _____.00

MAKE A WISE CHOICE

Your family needs to save money. If the ball pen and the gel pen last equally long, which pen should you buy for school so that you can help your family reach your financial goals?

The ball pen

The gel pen

How else can you help?
