

School name.....

Student Name.....Student No.....Class

REF03004

Connect single phase fixed wired equipment in refrigeration

Match between name and suitable defin

**Electrical
resistance**

**is the flow of
electrons through
a complete circuit
of conductors**

**Potential
difference**

**is the amount of work
energy required to
move an electric
charge between two
points in a circuit**

**Electrical
current**

**is a measure of the
opposition to current
flow in an electrical
circuit**
