OR

ACTIVITY 3.

Watch and listen to the part about orientation and fill the gaps

Orientation is about . Orientation is about the sex gender combination or lack thereof, that we are most attracted to. Most people are . They are attracted to people of the opposite gender. homosexual people are attracted to those of the same gender. Bisexual people to people of both genders. Some people couldn't care less about gender, to some it's all about the appeal of energy. Some people are pansexual. This means that they are capable of falling for someone their sex or gender presentation.
