Preescolar y Primaria

Name: _____ November, 17th,2021

Read the text and discuss it. Then answer the questions

- In May 1953, Edmund Hilary and Tenzing Norgay climbed to the top of Everest, the highest mountain in the world.
- The temperatura at the top of Mount Everest is between -36 C and 60C. It is also extremely windy.
- The climbers wore special clothes to protect them. They wore tick sweaters made of wool, silk gloves and leather books.
- Today, almost all mountain climbers` clothes are made of synthetic materials, because these are lighter and warmer than natural materials.
-
