

Suma y resta de fracciones

Método productos cruzados

Para sumar y restar

una mariposa te va a ayudar

los denominadores y las alas multiplicarás

$$\frac{7}{5} + \frac{2}{3} = \frac{7 \cdot 3}{5 \cdot 3} + \frac{2 \cdot 5}{3 \cdot 5} = \frac{21}{15} + \frac{10}{15} = \frac{31}{15}$$

$$\frac{8}{7} - \frac{3}{5} = \frac{8 \cdot 5}{7 \cdot 5} - \frac{3 \cdot 7}{5 \cdot 7} = \frac{40}{35} - \frac{21}{35} = \frac{19}{35}$$

$$\frac{4}{7} + \frac{2}{3} = \text{---} + \text{---} = \text{---}$$

$$\frac{1}{4} + \frac{7}{2} = \text{---} + \text{---} = \text{---}$$

$$\frac{10}{3} - \frac{5}{4} = \text{---} - \text{---} = \text{---}$$

$$\frac{18}{5} - \frac{7}{2} = \text{---} - \text{---} = \text{---}$$

$$\frac{4}{3} + \frac{9}{5} = \text{---} + \text{---} = \text{---}$$

$$\frac{7}{3} - \frac{2}{3} = \text{---} - \text{---} = \text{---}$$

$$\frac{8}{13} + \frac{4}{5} = \text{---} + \text{---} = \text{---}$$

$$\frac{9}{7} - \frac{7}{9} = \text{---} - \text{---} = \text{---}$$

$$\frac{12}{9} + \frac{8}{5} = \text{---} + \text{---} = \text{---}$$

$$\frac{6}{5} - \frac{3}{4} = \text{---} - \text{---} = \text{---}$$
