Part 3

Read the text about Omar describing smartphone games. For questions 16-20, choose the correct answer from the box to complete the sentences. There are more answers than you need.

Smartphone Games from Omar

My name is Omar and I live in the U.A.E. Today, I'm going to talk to you about three smartphone games that I really like. The first one is called *Explore the World*. This is a great game for anyone who's in Grade 5 to Grade 8 at school. It helps you to find out about the history of different countries and the people who discovered them.

The second game is called *Communication Problems*. In this you watch an English man called Mr Simpson travel around the world and meet different people. You have to notice when he makes a mistake with his communication, like sitting with legs crossed when he's in Saudi Arabia. *Avirax* - the game company - designed this game for business travellers, but it's fun for all ages.

Finally, *Find a Job Fast* is a new game in which teenagers can try doing jobs they might like in the future when they become adults. The game was created by Ernie Green from England, who didn't have a job at the time. He now has a successful games company. His other two games are *History Homes* (2014) and *Meet the Smiths* (2012).

<i>History Homes</i>	anyone	<i>Communication Problems</i>	people	designed

17. In *Communication Problems*, different people are _____ by Mr Simpson.
18. *Avirax* is the name of a/an _____.
19. The game that you can do things you might like in the future is called _____.
20. _____ is where Ernie Green comes from.
