Reading: Archie Mendes

Archie Mendes is the cleverest boy in Europe. His mother's Greek, but his father's Portuguese, so he speaks both of these languages perfectly. He also speaks English, which he's spoken since he was three, and French.

He's only 12 years old but he's studied at the Sorbonne University in Paris for two years. He's just helped some engineers to design an amazing new car which goes on land and on water.

He loves travelling and he's already been to India and Mexico, but he hasn't been to Brazil yet. He's had an invitation to visit a friend, so he's going to go there for his summer holidays.

He's just come back from Bollywood, where he helped to make a new film. He likes doing lots of different things in his free time, but his favourite hobby is free running. He's just made a short video. In it we can see him running through streets and jumping from wall to wall beautifully. He knows he always has to wear special clothes to protect his body when he does this. That's what makes him the cleverest boy in Europe!

1. Archie's parents are German and Portuguese.	True	False
2. Archie speaks Greek, Portuguese, Spanish and French.	True	False
3. He's spoken English since he was three.	True	False
4. He's studied in the capital of France for two years.	True	False
