TYPES OF SOIL

Name: _____ Date: _____

INSTRUCTIONS: Observe the following types of soil. Write those observations in your notebook.

TASK 2

1. Match the words with its correct definition.

Types of Soil	Definition
1. Loamy soil	Big sand particles, dry and rough to tough, hold less water.
2. Clayey soil	Mixture of sandy and clayey soil, good air and water holding capacity, good for plant growth.
3. Sandy soil	Very fine particle, sticky to tough and hold lot of water, used to make pots.

TASK 3

1. Compare and contrast on sand, clay and loam soil. (Tell how they are alike and different)

Sand	Clay	Loam
