

MATHS 2

UNIT 1A: 6.3. EQUIVALENT MACHINE

I. Fill in the blanks.

The equal machine makes calculations.

equal/equivalent:

have the value or amount.

'5 + 2' and '9 - 2' have the same value of 7, so they are . They are called equivalent.

II. Calculate and choose the equivalent calculations

(Tính và chọn phép tính tương đương)

$$27 - 9 = \boxed{} + 9$$

$$55 + \boxed{} = 99 - 22$$

$$33 - 5 = 20 + \boxed{}$$

$$\boxed{} + 22 = 54 - 15$$

$$50 + 7 = 80 - \boxed{}$$

$$14 + \boxed{} = 35 + 21$$
