

# Mathematics

Name: \_\_\_\_\_

Date: \_\_\_\_\_

## Patterns

Write the next three numbers in each pattern.

1. 2, 4, 6, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

2. 7, 14, 21, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

3. 650, 550, 450, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

4. 1 250, 1,125, 1,000, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

Read the rule. Write the first four terms of each pattern.

5. Start at 20 and count forward by ten.

\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

6. Start at 6, double each number to find the next term.

\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

Work out the missing number for each pattern.

7. 4, \_\_\_\_\_, 12, \_\_\_\_\_ 20

8. \_\_\_\_\_, 30, 50, \_\_\_\_\_ 90
