

I. Find the missing numbers.

$6 + \underline{\quad} = 4 + 6$

$9 + 3 = 3 + \underline{\quad}$

$8 + 2 = \underline{\quad} + 8$

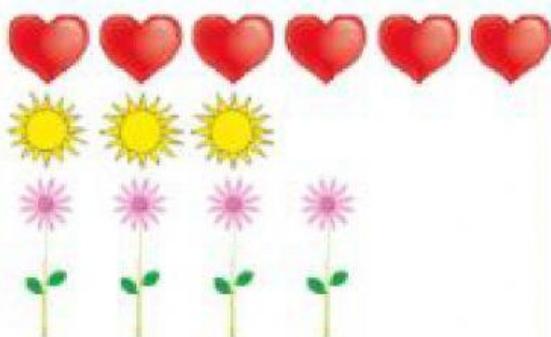

$\underline{\quad} + 8 = 8 + 4$

II. Problem Solving

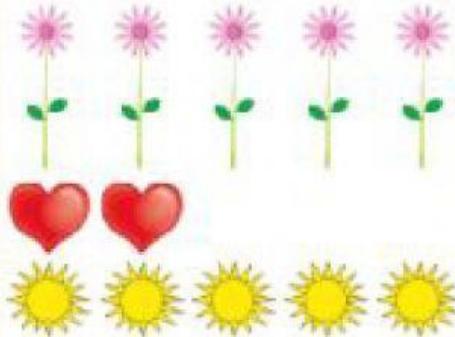

Find the objects in Box 1 and Box 2 that are the same.

Write an equation to show how many of each object there are. Then change the order of the addends.

Box 1

Box 2

$\underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} + \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} + \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad} + \underline{\quad}$
