

DAYS of the WEEK song

Listen to the song and write the words missing.

You can name all the _____ with a Cockney accent
"Sunday, Monday, _____"
You can yell them all out as you jump from a high dive
"Wednesdayyyyyy"
You can call each day by its last _____ letters
"Day Day Day Day Day"

But you better get it straight
There're _____ days a week, not eight
The Beatles song is wrong
For the record, let me state, that there's

_____, Monday, Tuesday, Wednesday
Thursday, Friday, Saturday, and round again
Sunday, _____, Tuesday,
_____, Friday, Saturday, it never ends
Sunday, Monday, Tuesday, Wednesday
Thursday, Friday, _____, and round again
Sunday, Monday, Tuesday, Wednesday
Thursday, _____, Saturday, it never ends

The _____ !
