GRADE 4 **TOPIC: CONVERSION OF LENGTH**

Created by Mr. Wallace

Mrs James is a dressmaker who lived in the town of Harland County. She has to travel Basco to buy materials for her shop.

Basco store sells metres of cloth. Basco is 4km from Harland.

Mrs James drove to Basco and bought 6m of cloth.

1. How far is Basco in metres?

2. How many centimetres of cloth did she buy?

3. How many metres would it take for Mr James to travel to Basco and back?

4. If Mr James bought 8m of cloth , how many centimetres of cloth does she have?
