

Name: \_\_\_\_\_

**J08 EXTRA PRACTICE 14**

In 1978 archaeologists made an important discovery right in the middle of modern Mexico City. It was a fourteenth-century pyramid from the ancient civilisation of the Aztecs. They started to excavate different rooms inside. In some rooms they found objects such as plates and cooking pots. In others, there were small religious statues or knives which the people used to make a sacrifice to their gods.

- The discovery was in \_\_\_\_\_ in \_\_\_\_\_ City.
- What was it?
  - (a) a pyramid
  - (b) a wall
  - (c) a castle
- What did they find?
  - (a) cooking equipment
  - (b) religious statues
  - (c) both
