Yesterday was my sister Linda's birthday. My mum and I decided to cook a special meal for her. I want to be a chef one day and I always help Mum with the cooking. We wanted to cook my sister's favourite food, so the first course was lasagne. Lasagne isn't a difficult recipe, but it takes a long time because there are lots of ingredients. Then we had roast chicken with some chips, and a salad. We didn't have any lettuce in the salad because I didn't put it on the shopping list! But we had tomatoes and carrots and a mango, so we put some mango in the salad, too! I love mango. But my favourite thing was the cake – a big chocolate cake with lots of small pieces of chocolate inside and on top. We used 400 grams of chocolate pieces! My sister was very happy.
