

9. Berdasarkan rajah yang berikut, isikan petak kosong dengan anggaran sudut yang diberi.
Based on the following diagrams, fill in the boxes with the given estimated angles.

SK 8.1 TP 2

270°	47°	180°	120°
------	-----	------	------

Jawapan / Answer :

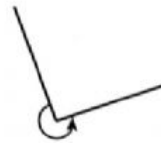

(i)

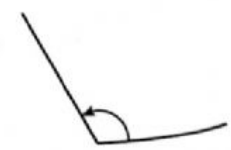

(ii)

(iii)

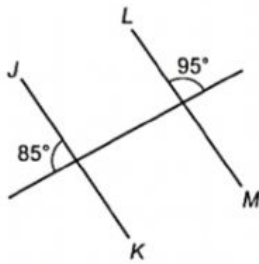

(iv)

[4 markah]
[4 marks]

10. Tentukan sama ada garis lurus JK dan LM adalah selari atau tidak selari. Bulatkan jawapan anda. **SK 8.3 TP 3** [4 markah]
 Determine whether the straight lines JK and LM are parallel or not parallel. Circle your answer. [4 marks]

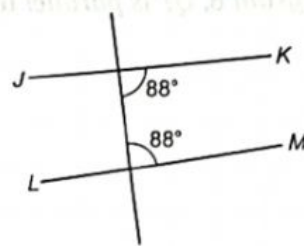

Jawapan / Answer :

(i)

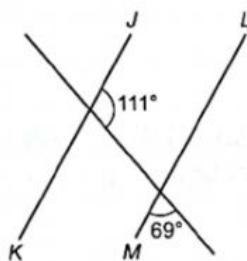

Selari Parallel	Tidak selari Not parallel
--------------------	------------------------------

(ii)

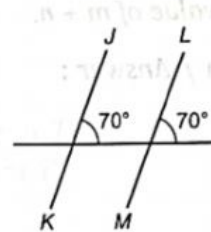

Selari Parallel	Tidak selari Not parallel
--------------------	------------------------------

(iii)

Selari Parallel	Tidak selari Not parallel
--------------------	------------------------------

(iv)

Selari Parallel	Tidak selari Not parallel
--------------------	------------------------------

11. Padankan jenis sudut-sudut yang berikut dengan rajah yang berpadanan. [4 markah]

Match the following angles with the corresponding diagrams. **SK 8.1 TP 1** [4 marks]

Jawapan / Answer :

Sudut pelengkap
Complementary angles

Sudut penggenap
Supplementary angles

Sudut konjugat
Conjugate angles

Sudut putaran lengkap
Angle of one whole turn
