- _____ 11. According to John Nicolson, the fact that something goes underground is an excuse to tolerate it.
- _____ 12. When politicians make new legislation, that inevitably that involves telling people how to live.

F. Grammar Point!

Dr. David Bull: "I don't think boxing was ever necessarily a working-class sport, indeed! But also, by the way, other sports **have been banned** like dueling. – **the Present Perfect**!"

• Le **present perfect** se forme avec l'auxiliaire *have* au présent (*she/he/it has – I/we/you have*) et le participe passé du verbe.

• Le **present perfect** pour exprimer le résultat présent d'une action passée

On ne s'intéresse pas au moment où cette action s'est produite mais seulement à son résultat dans le présent.

• Le **present perfect** pour faire le bilan d'une situation dans le présent

Faire le bilan veut dire que l'on examine le temps écoulé depuis un point de départ passé et que l'on regarde si l'événement en question s'est produit ou pas. On le trouve le plus souvent associé à des verbes au présent ou à des expressions temporelles qui établissent un lien avec le présent (*now, by now, so far, just, recently, it's the first time, over the past few days/months/years, always, never...*). *It's the first time I have heard such a funny joke.* (C'est la première fois que j'entends une histoire aussi drôle.) Cet exemple montre qu'inconsciemment celui qui parle a examiné son passé pour savoir s'il avait déjà entendu une histoire aussi drôle. Il est arrivé à la conclusion que "cela ne s'est jamais produit" et utilise donc le **present perfect** pour faire ce constat.

G. The DIFFICULT Questions!

1. In what year did the BMA begin campaigning for a ban on boxing?
2. What is the percentage of boxers that will suffer some type of brain injury?
3. A good punch from a professionally trained boxer is the equivalent of what?
