

Using the shopping list, and price tag on the given items, calculate the total cost of the items, and put the correct amount in the right spaces provided on the Bill.

### Question 1

| BILL   |            |           |
|--------|------------|-----------|
| Items  | Cost Price | Sub Total |
| 1 Milk |            |           |
| 1 Jam  |            |           |
| Total  |            |           |

### Question 2

| BILL        |            |           |
|-------------|------------|-----------|
| Items       | Cost Price | Sub Total |
| 1 Carrot    |            |           |
| 1 Box Juice |            |           |
| 1 Pumpkin   |            |           |
| Total       |            |           |

### Question 3

| BILL            |            |           |
|-----------------|------------|-----------|
| Items           | Cost Price | Sub Total |
| 1 Shirt         |            |           |
| 1 Pair of Pants |            |           |
| Total           |            |           |
