Multiplying Decimals by Exponent Numbers

-Please use a Pencil and Paper to solve these problems.
-Remember the steps.
-Remember to **write big** and give yourself <u>lots of room</u> to draw.

Step 1: Rewrite the problem
Step 2: Draw the movements
Step 3: Fill in the empty valleys (if there are any)
Step 4: Insert the decimal
Step 5: Write the new number

1)   1.568 x 100

2)   5.78 x 1000

3)   12658.9 x 1000

*This is practice activity is due Friday (tomorrow).
*Please show your work and take a picture of it. Send it to me on imessage.
