

My Trip to Australia

by Scott Winter

DAY 5

I had 've had a scary experience yesterday. While I watched was watching TV in my room, I saw 've seen a tarantula on the wall! Tarantulas be are very big, poisonous spiders which are living live in hot places. You shouldn't touch them because they can must bite. Luckily this tarantula didn't bite wasn't biting me!

We stay are staying in Alice Springs at the moment. Tomorrow, we're going back to climbing climb Uluru, a big rock in the desert. Maybe we 'll see 're seeing some kangaroos.
