

Bethany has won numerous awards in surfing. She grew up in Hawaii in a family who loved to surf. At the age of thirteen she became a rising star, after the national championships.However, on the 31 of October 2003 the tragedy struck while Bethany was surfing. The girl was attacked by a tiger shark. It took Bethany's left arm and the surfer nearly lost her life. Bethany said that it literally had come out of the blue - there hadn't even been the slightest hint of danger. When something pulled on her arm at first she didn't realised what had happened. After that, she saw that the water turned red, but she managed to stay calm and to paddle toward the beach, where the medical treatment had already been waiting for her. Less than a month after the incident, she was winning competitions again.
