- a)** Research the agreement of your university with other colleges: the academic plan and statutes and decide on the most suitable and convenient to you. _____
- b)** Be daring and outgoing. If you really want to enrich yourself with experiences, don't be afraid or concerned about money or any other factor. _____
- c)** Look up alternatives for staying, either it is a small single room or a shared flat analyze the benefits each one offers you. There are people who help students to get their accommodation. _____
- d)** Gather the documents requested for the application and process the missing ones. _____
- e)** Review the advantages and disadvantages of breaking your pace of study. Consider the advancement you have so far and the future conditions. _____
- f)** Get your luggage ready for the trip and don't forget what you are not allowed to carry with you. _____
- g)** What you are willing to do, the courses you want to take and the experiences you are looking for will lead you to find the right place to study. So deeply think of all the aspects studying abroad implies. _____
- h)** Be aware of the economic issues. Your college gives you a certain amount of money to cover expenses which you should manage well and which does not cover the apartment rent or travel ticket. _____
- i)** Look up information about, read up on and ask people about the place or possible places where you want to have your experience, and try to get your doubts cleared up. _____
