

The Sun and the Moon

One day the sun said to the moon,
“I shine in the day so the people
on Earth can see.”

“I give energy to all the plants and
animals.

It takes Earth a whole year to go
around me.”

The moon said, “I am sometimes in the sky
in the day time and I am sometimes in the
sky at night.”

“I have lots of mountains and I also have
big craters.

I make the tides in the sea.

It takes me one month to go around Earth.”

Questions.

1. The sun gives energy to animals and
2. What goes around the sun in one year?
3. What is in the sky in the day or the night?
4. The moon has craters and
5. What makes the tides in the sea?
6. How long does the moon take to go around Earth?
