# Welcome to your notebook

Here you will find past worksheets and new ones.

You can repeat past worksheets for extra practice, if you like.

Your teacher will assign you new worksheets as homework from now on.

Remember that you must have 5 marks minimum before a worksheet can be considered finished. If you get less than that, you can repeat the worksheet. You can also repeat it if you want some extra practice.

You don't have to finish a worksheet in one go: if you run out of time, you can save it for later, and finish it when you have time.

When you finish, click on the Finish! button as usual and check your mistakes. Ask your teacher if you think there is an error or you don't understand why your answer is wrong.

Have fun!

Is everything clear?

yes → Let's check that. Answer the questions below, please.

no → Read the instructions above again, please.

| | | |
|---|---|---|
| Are all the worksheets obligatory? | yes | no |
| Can I repeat a worksheet many times? | yes | no |
| Can I interrupt a worksheet and continue later? | yes | no |
| Can I see the correct answers after I finish? | yes | no |
| Can I cheat and copy the correct answers? | yes | no |
