5. Read and complete

Read the following letter and fill in the blanks with suitable words.

Dear Han Su,

How are you doing? I hope everything's fine. Right now, I'm in the school's computer lab. We're lucky that we have free Internet access. It's recess now. Talking about school recess, I remember you said that students in your school must _____1 in the classroom during recess. I wonder why.

After this, I'll have a math quiz. You know what? I've studied very hard. We mustn't _____2, right? That would be dishonest. The math teacher is Mr. Sutikno. He's a new teacher in our school, but he has many rules that we have to obey. We must _____3 our mobile phones. We mustn't _____,4 especially when he is explaining a lesson. We also must _____5 punctual. He himself never comes late. So, he's a very good example of his own rules. And nobody dares to be late. You know why? When you're late, you must _____6 a very difficult math problem. Well, we will only embarrass ourselves if we can't do it, right? And we don't want that to happen, do we? Another rule is that we mustn't _____7 at school. We all have to be friends. There are many other rules, but I've gotta go now. Write me soon, please.

Love,
Adelia
