ASIGNATURA: INGLÉS

TOPIC: Protecting Amazon Region

OBSERVE:

What do you know about the Ecuadorian Amazon?

REFLECTION:

Culture

In the Amazon region of Ecuador, there are nine different indigenous nationalities: Kichwa, Shuar, Achuar, Shiwiar, Cofán, Siona, Secoya, Zápara, Andoa, and Waorani. They speak different languages and have different customs. Most of these nationalities welcome thousands of international tourists every year

WHAT YOU SHOULD KNOW:

Protecting the Ecuadorian Amazon

The Amazon region of Ecuador is found in the eastern part of the country. Of the four geographical regions of the country (Amazon, Highlands, Coast, and Galapagos), it is the largest in area. It is one of the most biodiverse places on the planet, with thousands of species of plants and animals. It is a natural treasure for the country and the world. There are five national parks in this region: *Yasuni*, *Cayambe-Coca*, *Llamantes*, *Sumaco Napo-Galeras*, and *Río Negro-Sopladora*.

This beautiful region is in danger. There is a lot of oil (near 800 million barrels) in the ground of the Ecuadorian Amazon. If oil companies remove this oil from the **ground**, the ecosystem will be **disturbed**. It can **harm** the plants and animals. Some indigenous groups of the region, especially the Waorani, have fought and won important legal battles to preserve the land. But this fight is far from finished.

There are constant **attempts** by oil companies to **drill** in the region. There are also instances of illegal deforestation in the region. As long as there continues to be strong opposition to this, there is hope that the Amazon region of Ecuador will remain protected.

HOMEWORK:

1. Answer the following questions in small groups. Write down what you discuss.

- According to the reading, what is special about the Amazon region?

.....

What are the two sides of the oil debate? What do oil companies want? What do the indigenous people want?

.....

- Have you heard any news recently about this topic? Share it.

.....

- What is your own personal opinion? Should the oil companies be able to drill for oil in order to make money, or should the Amazon be protected? Defend your opinion with solid arguments.
