READING!

7. READ. CHOOSE TRUE, FALSE OR DOESN'T SAY.

The Sahara Desert

The Sahara isn't the biggest desert in the world, but it's the largest hot desert. The deserts of Antarctica and the Arctic are bigger than the Sahara but they are cold deserts. The Sahara is 9.4 million sq. km. and covers most of North Africa, including Algeria, Egypt, and Morocco. The desert has mountains, mountain ranges, and volcanoes. The highest peak is the volcano Emi Koussi. That is 3,415 m. high. It doesn't often rain in the Sahara, but it's often very windy and sometimes there are sandstorms in the northeast of the desert.

1. The Sahara is the largest desert in the world. F
