One of the funniest films I have ever watched is an animated movie called "Despicable me" which was released by Universal Studio in (**1**) _____. There are some important characters in the story: a man named Gru who wants to be the (**2**) _____ villain of all time, Doctor Nefario and the Minions who assist Gru to fulfil his goal, Margo, Edith and Agnes who later on become Gru's children, and Vector who is Gru's (**3**) _____.

The story (**4**) _____when Gru is unhappy because he discovers that there is another super villain who can steal the Great Pyramid of Giza. To restore his (**5**) _____, he sets an ambitious aim to steal the (**6**) _____. To do that, he needs a shrink ray gun and a spaceship. A lot of things happen. Gru adopts Margo, Edith and Agnes to break into Vector's house to steal the (**7**) _____. He also builds his own spaceship. However, after being with the girls, Gru realizes that he wants to be with them. In the end, Gru chooses to live a normal life with his three (**8**) _____.

Personally, my favourite character is Gru because he is really brave and creative whenever he does something. Moreover, he is a good father. Even though the film is about a villain as the main character, the story is really hilarious, and it teaches people not to give up, and that it is never too late to (**9**) _____ and do the right thing. I really like the movie, and I (**10**) _____ recommend people to watch the movie.
