Traveling to the past and the future!

Time travel is a popular theme in books and movies. There were even books about it more than 100 years ago. These are just a few classic books about time travel.

1 Charles Dickens' classic Christmas story isn't science fiction, but the main character Scrooge does go back to his past and sees his possible future. In the past, he was happier because he cared about others. In his present, all he cares about is making money. Does he learn his lesson?

2 This novel by Mark Twain is about a man named Hank who travels back to King Arthur's time after he is hit on the head. People then believed in magic. There were no fireworks or telephones. Hank thinks that he can use modern technology to get power. But does his plan work?

3 H.G. Wells was the first person to use the term "time machine." The main character in this book invented a machine that takes him to the future. He meets many strange creatures and finds out that there are no more humans. What do you think happens when he tells his friends his story?
