I. READING

Last year I was staying with my family in a lovely hotel by the sea. From our window we could see a small island. And that's when Dad decided to get a boat! We took a picnic and a few blankets and then we were sailing to the island. We weren't far from the island when it started to get windy and Dad hit a dangerous rock. That was the end of the boat!

We swam to the island, sat on the sand and ate our sandwiches. But then a storm came and it started to get dark so we went inside a cave. Dad had a torch with him so we could still see. He found somewhere dry and Mum put the blankets on the ground. And that's where we all slept for the night! The next day a big boat full of people visiting on the island and our adventure was over!
