

# At the Petrol Station

## Part 1

Watch the video (without the subtitles) and fill in the gaps in the text:

**Bob the Canadian here.**

Let's learn English .... at the \_\_\_\_\_!

Hey Bob the Canadian here, if this is your first time watching these video please click the subscribe button below, and if you could at some point during this video give me a thumbs up that would be awesome.

So I noticed when I got in my van today that I \_\_\_\_\_, or almost out of gas. The \_\_\_\_\_, the little dial that tells me how much gas I have left, was \_\_\_\_\_ low. In English we would describe this as, "Running out of gas." We also describe it as, "Running \_\_\_\_\_." Yeah, you could say I was running on empty which means there's just a tiny amount of gas left.

I think I have enough gas to get to the gas station so that I can \_\_\_\_\_ my gas tank in my van. Hopefully I \_\_\_\_\_ it there. So a few sentences in English to describe this, you would say, "I need gas." "My car needs gas." or "My van needs gas." "I need to \_\_\_\_\_ gas." "I need to fill up my gas tank."

So one of the first things to \_\_\_\_\_ is the price of gas, and generally there's a nice \_\_\_\_\_ on the road outside of a gas station which will let you know how much gas is going to cost. At this gas station gas is \_\_\_\_\_ \$1.20 per litre. That's actually not too bad for right now, so let's go fill up.

At the gas station you're going to find \_\_\_\_\_. Gas pumps generally pump three different \_\_\_\_\_ of gas, but they also pump diesel. Diesel is generally used for things like \_\_\_\_\_ and tractors. My particular van uses gas so we're just going to fill this van up with gas.

So one of the first things I need to do is I need to open up this little door and \_\_\_\_\_ my gas cap. This is the \_\_\_\_\_. Then once I've got the gas cap off on the gas pump I need to \_\_\_\_\_ what type of gas I want to \_\_\_\_\_.

So I'm gonna take the \_\_\_\_\_ out. It's attached to the gas \_\_\_\_\_ or just the hose and we're just gonna put that into my \_\_\_\_\_, let me give you a look at that, so I'm ready to pump, I have my hand on the nozzle and I'm going to go here and I'm gonna select this \_\_\_\_\_ of gasoline which is the lowest grade 'cuz that's all Bob the Canadian can \_\_\_\_\_.
